Dear [MLA's Name],

I am a resident within your constituency and am writing out of concern regarding the government's recent use of Section 33 of the *Canadian Charter of Rights and Freedoms*.

I find the invocation of this section, and efforts to normalize its use, incredibly concerning, as it permits any government to override the fundamental rights and freedoms guaranteed to individuals and groups under the Charter. I believe these rights must apply equally to all Canadians, even if the government finds a result undesirable.

I urge you to advocate for the protection of the Charter and to oppose the use of Section 33 in this instance. Please stand with your constituents in upholding the rights and freedoms of everyone in your riding.

"When the rights of one are removed, the rights of all are at risk."

Sincerely,
[Your Name]
